

Description:

SAPAIS consists of a liquid product with a gel-like aspect, highly concentrated and tens active. It is designed to remove synthetic paints in a stripping way.

Uses:

To remove synthetic paints, varnishes, rubber lacquer, glues, blobs on wood, glass pieces, etc.

Features & benefits:

EFFECTIVE CLEANER.GREAT STRIPPING POWER.IT MAKES PAINTING AND RESTORATION EASIER.

Surface preparation:

The background of application does not require any special treatment.

Application:

- Apply using a paint brush, roller or spatula onto the contaminated support, leaving it to act for 10 minutes approximately until the paint starts coming off. Apply in a thick coating.
- Finally use a spatula or water pressure so as to remove the paint.
- Repeat as many times as considered necessary.
- Once all paint is removed, the support does not require any special treatment to make it become neutral.

TechnicalFeatures:

- Density: 1.15 Kg/L \pm 0.05
Viscosity: 8.500 \pm 2.500 mPas.
-: Great penetrating power (it penetrates various layers of paint or render).
Colour/s: Transparent-whitish.
-: It is not formulated with acids or alkalis.
-: It has a quick action and reduces sanding, wire brushing and soda blasting.
-: It has a low degree of evaporation that increases its durability and prevents paint from adhering again.
-: Tensoactive.

Coverage:

4 m2 per l.

Clean up:

Clean using large amounts of water.

Storage:

It is recommended to store this product for 3 years in tightly closed original packages in a cool dry place.

The information provided on this technical data sheet and particularly the recommendations for the application and use of the product is based on our current knowledge and are provided in good faith, considering that the products are used, handled and stored under normal conditions and within the limits of it's useful life. The possible differences between the materials, supports, and real conditions in the application site can be so important that it is no possible to establish a warranty with this document or any other information provided. The user must verify with a suitability test that the product conforms to the required use. Users should refer to the information included in the last technical data sheet edition.
